

“CADANZO”

Talent works, genius creates

INTRODUCTION

“Graphic design is the paradise of individuality, eccentricity, heresy, abnormality, hobbies and humors.”

Auto-CAD is a computer-aided drafting software program used for creating blueprints for building, bridges and computer chips, AutoCAD is used mainly by drafters, although engineers, surveyors and architects may need to use the software from time to time.

Auto-CAD used in architecture, construction and manufacturing to assist in the preparation of blueprints and other engineering plans. Professionals who use Auto-CAD are often referred to as drafters.

While drafters work in a number of specialties, the six most common specialization areas are mechanical drafting, architectural drafting, civil drafting, electrical drafting, electronics drafting and aeronautical drafting.

OBJECTIVE

To design a given 2D plan of a 2BHK residential building by using Auto-CAD software only (Systems will be provided by organizing team).

EVENT STRUCTURE

ROUND-1. The team will have to make a plan on Auto-CAD according to the plan provided at the event. The plan may consist of top view, elevation and cross sections. The plan will have to be completed at a specified time. Decisions will be made by the judges on who gets to go to the final round. Judge's decision will be final.

ROUND-2. The shortlisted teams shall have to make a drawing on AutoCAD according to the requirements given at the event in the Final round. The Best Design will be chosen according to the judges. Judge's decision will be final.

RULES

1. No of participants in a team can be 2 to 3.
2. Evaluation of the design on the basis of
 - Aesthetics
 - Cleanliness of work
 - Work duration
 - Design Efficiency
3. Judge's decision will be final.

JUDGING CRITERIA

The jury members would use the following judging criteria for selection of the finest design for First, Second and Third team positions in the final round-

- Originality of the design- 50points
- Clear and easily comprehensive design- 25points
- Clear and easily understood word description on the Auto-CAD design- 25points.
